# GIVING BEGINS WITH YOU

We live in a world where quality healthcare is often associated with astronomical costs. Access to world class healthcare and wellness support is the privilege of the select few, even India's middle class which is in excess of 250 million has to depend on health insurances to avail critical healthcare; average basic healthcare delivery also comes with its own premium price tag. Yet there are few people and institutions which come across as a whirl of fresh breath in the stifling scenario. The 1000-bed Moonakshi Mission Hospital & Research Centre in Madurai and the 250-bed Moonakshi Hospital in Thirajvarur are shining examples of the same; they are synonymous with highest quality & affordability not just in Tamil Nadu but also across India. And the man behind both the healthcare institutions of excellence is Dr. S Gurushankar, the young chairman spear heading the hospitals. The man is responsible for a multitude of revolutionary initiatives aimed at radically altering the functionality of the nation's healthcare delivery framework.

**DR. S GURUSHANKAR**  
Chairman, Moonakshi Mission Hospital, Madurai  
Chairman, Moonakshi Hospital, Thirajvarur

**D**r Gurushankar's recent initiative, aptly called *Atma Seva Seva Parivar* translates to giving begins with you and points to his commitment to a noble cause. He is a man on a mission of making quality healthcare accessible to every section of the larger society. His commitment to the cause he believes in is manifested in the form of a number of path breaking projects. Dr Gurushankar is credited with conducting more than 12000 free cleft lip/palate surgeries and rendering free treatment to over 2000 cancer afflicted kids from under privileged families. He is also the brain behind the use of his kind's Hospital on wheels' telemedicine facility reaching out to thousands of needy people in the most remote of southern Tamil Nadu. The enterprising doctor is also responsible for shaping a distinctive hospital at Moonakshi Mission Hospital & Research Centre to address the special needs of patients suffering from terminal illnesses. Moonakshi Mission Hospital & Research Centre and Moonakshi Hospital provide free meals to all the in patients. Thanks to the doctor's benign approach to patients seeking comprehensive medical care, Dr Gurushankar also had many firsts to his

credit as is evidenced in his impressive work portfolio. He commissioned Moonakshi Hospital in Thirajvarur at a time when there were absolutely no multi specialty hospitals in the entire state belt of Tamil Nadu, thus making it the first multi specialty healthcare provider not only Thirajvarur but also the surrounding districts. His much decorated specialties have many others including recognition as the doctor in-charge on the first ever Cardiology department setup with a Cath-lab and CT surgery unit in the state belt. The first ever fully equipped emergency & trauma unit, first kidney transplant procedure, first non-invasive prostate CT surgery, and first dialysis and Oncology facilities in the state region can be credited to Dr Gurushankar's pioneering efforts.

Moonakshi Mission Hospital & Research Centre (MMHRC) in Madurai has been taking rapid strides under the able leadership of Dr Gurushankar. In fact, the hospital has come a long way over the past three decades earning recognition as a world class multi specialty medical center. Millions of patients not only from India but also from other parts of the world flock to MMHRC to avail high end medical facilities & services pertaining to various specialties. The hospital is powered by a pool of highly skilled medical professionals, cutting edge infrastructure and futuristic technologies. The hospital is home to such Asiat's first Optical Coherence Tomography (OCT) machine, integrated Cath-lab and southern Tamil Nadu's first and best Oncology care center catering to all age groups.

MMHRC is widely acknowledged as southern Tamil Nadu's pioneering medical entity having commissioned many a specialty facility for the first time ever. An ultra modern Bone marrow transplant centre, a kidney transplant facility, a comprehensive Cardiology centre replaces with

South Tamil Nadu's first Electrophysiology facility and many world ground breaking developments give the hospital a distinguished presence on the nation's medical landscape. It is in fact the first multi-specialty hospital in the region to commission a quick response Emergency Medicine Dept providing the 'golden hour' treatment. Today MM-PC is backed by a robust functional framework capable with more than 40 clinical specialties serving all the strata of the society. Thanks to NVHRC, the people in and around its surrounding areas need not look towards any metro city to avail world class India high quality, responsive, accessible and affordable.

**Meenakshi Hospital, Thanjavur** is yet another world class multi-specialty providing facility sustained by Dr. Ganushankar. The hospital is the first and only NABH (The National Accreditation Board for Hospitals & Healthcare Providers) accredited multi-specialty hospital in the delta districts of Thanjavur and Tiruchirappalli. The NABH accreditation is regarded as the gold standard of quality across the country; the fact that Meenakshi Hospital is the only accredited entity speaks volumes about the services and amenities offered in the facility.

The hospital offers outpatient, inpatient and diagnostic services pertaining to multiple super specialties in an integrated platform. The hospital is a fine example of seamless synergy powered by distinct expertise, state-of-the-art infrastructure, modern methodologies, corporate governance, acute leadership and a robust service motto. The organization's mission statement, "to provide the best in health care" says it all. Meenakshi Hospital services top quality yet highly affordable services spanning several specialties including Cardiology, Neurology, Urology, Nephrology, Orthopedics, Critical Care, Trauma Care etc. In tandem with a host of regular services the hospital also caters to international patients through an exclusive international patients service department. Apart from health & wellness related services the wing also offers support services including visa assistance, airport transfers, accommodation, priority consultation and insurance facilitation. The 250 bedded multi-specialty facility is backed by solid experience of handling 500,000 intricate procedures successfully. The center, the hospital is rightfully recognized as a one-stop medical center of excellence that combines quality and affordability. Both NVHRC and Meenakshi Hospital stand as pillars of medical excellence thanks to the untiring efforts of the chairman Dr. Ganushankar. In fact his influence as a responsible corporate citizen spans the entire private healthcare sector in the state. Dr. Ganushankar is also steering the Tamil Nadu Chapter of Association of Healthcare Providers of India (AHPPI) since the last three years. In his dynamic tenure as the President, he has been at the forefront of promoting the interests of the state's private health care by presenting their case to the Madras High Court on several issues of importance. Many of the resulting judicial interventions have far reaching ripples, much beyond the borders of the state, impacting the country's healthcare industry positively. Notably, a court case filed by AHPPI under Dr. Ganushankar's stewardship which led to a ground-breaking judgment regarding the cost of medical procedures. The court has observed that nothing has to be done before pricing of any procedures. This was highly significant because, according to one estimate, hospitals are packed with government health schemes and

are losing anywhere from 40% to 60% of the actual cost of medical procedures, which is clearly unsustainable and bad for the financial health of the healthcare industry. On being queried about his achievements as a medical professional and also as a devoted entrepreneur the young doctor humbly states: "I see myself as a doctor with social responsibility first and foremost. I do agree that I have a work to do serving medical needs and filling the vacuum wherever needed within the ambit of broader healthcare domain and continuum. Part of this ability can be attributed to my learning experiences at globally revered seats of management education including Ivy League Harvard Business School. But as an individual I find myself totally committed to the cause of social upliftment of the underprivileged leveraging my core expertise. I achieve my social goals by pioneering employment of the latest medical technologies, methodologies and infrastructure in and around the delta belt, and making the same accessible and affordable to every section of the society including the downtrodden and underprivileged. That is my world and as part of his CSR activities he has personally treated 1500+ poor surgeries who are truly free of cost to needy kids in his capacity of director, Kid Aid Foundation, a dedicated NGO championing the cause of children's well-being. A host of awards have prestigious organizations vouch for Dr. Ganushankar's commitment to social equity in the healthcare delivery domain. Some of the recent awards bestowed on him include Manoharan Samral Award 2013, Outstanding Teaching Hospital Award 2017, Dr. Avani 2016, NPM Award 2016 etc. Under his leadership MM-PC and Meenakshi Hospital are poised for a giant leap in the medical world by treating larger footprints and reaching out to more number of needy patients.
